Monarch HD Digital Print Laminate Flooring

Qualimax laminate flooring range

Qualimax delivers a stunning range of laminate flooring which uses the latest digital imaging technology resulting in a finish so stunning you would not realise it's not natural timber. A popular flooring choice with a great finish as an affordable option.

Many suppliers have 6-8 different wood patterns, at Qualimax we have more than 70 different wood patterns to choose from.

Featuring 80 hours surface water resistance, and AC4 scratch resistant rating, your laminate flooring is the highest quality, giving you a premium looking product for your floor.

High definition imagery

Laminate floor is a very popular product in the market, the main difference of our new range compared to other brands' products is less repetitive and more vivid patterns.

Our stunning imagery is so natural you would think you were looking at actual timber planks.

Extensive range to choose from

Other products only have 6 or 8 different wood patterns, but at Qualimax we have more than 70 different wood patterns, and 12 different colours to choose from resulting in the perfect flooring choice to suit your needs.

Laminate floor features

The quality material of laminate flooring has unique features such as:

Water resistant treatment

Not all laminate products are created the same. Qualimax Laminate flooring is manufactured with a surface water resistance of 80 hours.

Durable

Choose Qualimax Laminate flooring for reliable and quality protection of your living space. Suitable for everyday wear and tear, an exceptionally durable product.

AC4 scratch resistance rating

The highest durability rating! This makes Qualimax Laminate flooring suitable for personal or commercial usage.

5G locking system

A fold down installation system that provides enhanced water resistance by preventing water from penetrating into the seams of the floor panels. This innovation makes the flooring easy to install and live with.

Low maintenance

Laminate flooring is easy to clean and maintain. It's superior stain and moisture-resistant surface coating makes spills and other messes easy to handle. This special surface doesn't require waxes or varnishes to keep it looking in great condition.

Easy installation process

Both simple to install and maintain, this is the perfect option for DIY enthusiasts.

Warranty

Qualimax Laminate floors comes with 25 years residential and 10 year commercial warranty, ensuring long-term protection for your home.

Colour range

Qualimax Laminate flooring is available in 12 colours and 70 different wood patterns to choose from.

Our plank sizes are 2200 x 239 x 12mm, a point of difference over many others which are 1900 x 196, and thickness may drop to 8mm. So Qualimax planks are longer, wider and thicker!

Maintenance Tips

In order to keep your Qualimax Laminate flooring in the best condition for as long as possible, it's important you're aware of the best way to clean laminate flooring.

- ✓ Don't clean laminate flooring with water. When wood and high levels of water combine, wood can swell. Take a look at the other ways to take care of your Laminate floor below.
- ✓ Regularly sweep and dry brush to keep dust, dirt and debris at bay. If you want to give an even more thorough clean, you can use a vacuum.
- ✓ Ensure your vacuum is set to a soft brush setting, not a hard brush which may scratch Laminate flooring.
- ✓ Mopping is suitable but keep water levels to an absolute minimum. Ensure your mop has been well-rung to use the minimum moisture necessary to clean the Laminate floor.
- ✓ Clean liquid spills straight away. A clean cotton cloth is ideal for this purpose.
- ✓ If you discover a stain on your laminate flooring, don't panic. With a little rubbing alcohol, you'll remove unwanted marks in no time. Simply dab the affected area with a small amount of rubbing alcohol on a cloth. Let it stand for a few minutes and then rub
